

# INSTITUTIONAL DISTINCTIVENESS

(2023-2024)

## ROLE OF WOMEN EMPOWERMENT

Creating an inclusive environment is key to empowering female students academically, socially, and professionally.

- ❖ **Encouraging Leadership:** SFRC fosters leadership through the Student Union Elections, where final-year PG and UG students hold significant roles. Students also lead activities and workshops as coordinators.
- ❖ **Emotional development:** Supports monthly mentorship and counseling programs, with personal counseling available every Saturday.
- ❖ **Networking opportunities:** Provided through MoUs with industries for internships, field visits, and projects. The Placement Cell also prepares students for TNPSC and banking exams, refining their communication skills through mock interviews.
- ❖ **Digital and technological skills:** Enhanced with Wi-Fi, computer labs, online quizzes, and e-learning modules via the Green Matte Studio and Lecture Capturing System. The Information Resource Center and smart lab encourage research and critical thinking.
- ❖ **Gender equity:** Promoted through the Gender Cell and curriculum. Economically weak students receive support through free meals, scholarships, and welfare schemes. Entrepreneurship is nurtured through ACIDE/IIIC, YWED, skill enhancement courses, and startup programs.
- ❖ **Physical wellness:** enhanced with yoga, a gym, and sports facilities. Community involvement is encouraged through awareness campaigns and participation in UBA, NSS, YRC, and NCC.
- ❖ **Cultural and environmental awareness:** Promoted through eco-friendly practices and initiatives like sapling distribution and zero-waste practices. Recognized with the Manjappai Award, these efforts empower female students to excel in their life journey.
