

**THE STANDARD FIREWORKS RAJARATNAM COLLEGE FOR WOMEN (AUTONOMOUS),
SIVAKASI – 626 123.**

(Affiliated to Madurai Kamaraj University, Re-accredited with A+ Grade by NAAC,
College with Potential for Excellence by UGC and Mentor Institution under UGC PARAMARSH)

**DEPARTMENT OF PSYCHOLOGY
UG DEGREE PROGRAMME IN PSYCHOLOGY**

PROGRAMME EDUCATIONAL OBJECTIVES

The Graduates will

PEO1.	advance with the learned knowledge to secure a job or create a profession within the realms of psychology
PEO2.	develop managerial and entrepreneurial skills that aid them to handle challenging work environments ahead.
PEO3.	innovate ideas to solve problems of the society with the aid of psychological research and publication skills by pursuing a higher education in the field of psychology.

PROGRAMME LEARNING OUTCOMES

By the Completion B.Sc programme, the learners will be able to

PLO1.	Apply the knowledge of Arts, Science and Humanities to address fundamental and complex questions appropriate to their programmes.
PLO2.	Make use of appropriate knowledge and skills to identify, formulate, analyze and solve problems in order to reach substantiated conclusions.
PLO3.	Critically analyze research processes, products and practices with a view of strategic use of data in their field.
PLO4.	Demonstrate skills in oral and written communication and make use of ICT in various learning ambience.
PLO5.	Interact productively with people from diverse backgrounds as both leaders/mentors and team members with integrity and professionalism.
PLO6.	Defend the society against gender and environmental issues with moral and ethical awareness.
PLO7.	Formulate their own educational needs in a changing world in ways sufficient to maintain their competence and to allow them to contribute to the advancement of knowledge.

COURSE LEARNING OUTCOME

Core Course	
Course Code: 23GZC11	Course Title INTRODUCTION TO PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the working knowledge of psychological contents, areas, and applications of psychology
CLO2[K3]	apply the principles of psychology to examine real-life circumstances
CLO3 K4]	analyze the application of various theories on the basis of its effectiveness in the practical world.
CLO4[K5]	evaluate misconceptions or erroneous behavioural claims based on evidence from psychological science.
CLO5[K6]	develop new insights about the impact of psychological variables on common behaviours.

Core Course	
Course Code: 23GZC12	Course Title: BIOLOGICALPSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	.describe the core concepts and recent research in Biological Psychology
CLO2[K3]	.apply the core concepts of Biological Psychology to understand human behaviour
CLO3 K4]	examine the impact of the nervous system, endocrine system and internal body States on behaviour
CLO4[K5]	evaluate the contributions of major systems of the body to the human functioning and human behaviour.
CLO5[K6]	predict the course of psychological functioning from the Biological Psychology perspective.

Generic Elective Course

Course Code: 23GZEG11

Course Title: BUILDING
PSYCHOLOGICAL CAPITAL

On successful completion of the course, the learners should be able to

CLO1[K2]	describe the core knowledge that surrounds the Psychological Capital.
CLO2[K3]	construct the ways to strengthen the Psychological resources under stressful scenarios.
CLO3 K4]	analyze the positive perspective and its effect on determinants of human behavior
CLO4[K5]	.evaluate the impact of taking the positive approach to improve the mental well-being of an individual.
CLO5[K6]	design novel intervention strategies to improve the Psychological Capital

Core Course

Course Code: 23GZNE11

Course Title: PERSONALITY
DEVELOPMENT

On successful completion of the course, the learners should be able to

CLO1[K2]	describe the core concepts that contribute to personal growth and development
CLO2[K3]	apply evidence-based practices in teaching and learning to solve education related problems
CLO3 K4]	analyse the factors that contribute to the functioning of self.
CLO4[K5]	evaluate the contributions of various strategies in terms of its effectiveness and relevance.
CLO5[K6]	improve self-awareness and competence from utilizing the strategies.

Foundation Course	
Course Code: 23GZFC11	Course Title: FOUNDATIONS OF RESEARCH METHODS IN PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	explain the methods in psychological science
CLO2[K3]	apply the methods of psychology to perform scientific investigation
CLO3 K4]	analyze the factors that influence the research findings of psychology
CLO4[K5]	evaluate the ethical standards of utilizing appropriate methods in terms of its relevance
CLO5[K6]	propose new data collection strategies in relevance to the current digital innovations.

Core Course	
Course Code: 23GZC21	Course Title: INTRODUCTION TO PSYCHOLOGY II
On successful completion of the course, the learners should be able to	
CLO1[K2]	.describe the working knowledge of psychological contents, areas, and applications of psychology.
CLO2[K3]	.apply the principles of psychology to examine real-life circumstances
CLO3 K4]	analyze the application of various theories on the basis of its effectiveness in the practical world.
CLO4[K5]	evaluate misconceptions or erroneous behavioural claims based on evidence from psychological science
CLO5[K6]	develop new insights about the impact of psychological variables on common behaviours

Core Course	
Course Code: 23GZC22	Course Title: DEVELOPMENTAL PSYCHOLOGY I
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the key concepts and theories of developmental psychology
CLO2[K3]	apply the core knowledge of the child development to facilitate the understandings of a child's periodic developmental outcomes
CLO3 K4]	analyze the appropriate developmental approaches and strategies to enhance child development
CLO4[K5]	appraise theories on the basis of its relevance to the diversity in the contemporary society
CLO5[K6]	formulate new intervention strategies to deal with modern problems arising in childhood

Core Course	
Course Code: 23GZEG21	Course Title: CROSS CULTURAL PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	.describe the diversity associated with the interactions of different cultures with the psychological functioning
CLO2[K3]	.apply knowledge and skills of Psychology in a manner that is reflexive, culturally appropriate and sensitive to the diversity of individuals
CLO3 K4]	analyze the cultural factors that impact the human developmental process
CLO4[K5]	evaluate the relevance of the conceptual theories from the view of culture spectrum.
CLO5[K6]	create new strategies to enrich cultural sensitivity, aiming at embracing the cultural diversity.

Core Course	
Course Code: 23GZNE21	Course Title: EMOTIONAL INTELLIGENCE
On successful completion of the course, the learners should be able to	
CLO1[K2]	explain the concepts and skills related to emotional intelligence.
CLO2[K3]	apply the concepts and skills to understand emotional awareness and management
CLO3 K4]	analyse the factors that contribute to the development of emotional intelligence.
CLO4[K5]	evaluate the models of emotional intelligence in terms of its relevance
CLO5[K6]	improve on the skills required to the development of emotional intelligence

Core Course	
Course Code: 23GZC31	Course Title: DEVELOPMENTAL PSYCHOLOGY II
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe and identify concepts and theoretical perspectives related to typical development across the physical, cognitive, and psychosocial domains of development
CLO2[K3]	apply principles to real-world issues and problems of adolescence and early adulthood
CLO3 K4]	analyze the factors that impact the development during adolescence and early adulthood.
CLO4[K5]	evaluate the major theoretical perspectives of development on the basis of its relevance in the contemporary world
CLO5[K6]	formulate new intervention strategies to deal with modern problems arising in adolescence and early adulthood.

Core Course

Course Code: 23GZC32

Course Title: SOCIAL PSYCHOLOGY I

On successful completion of the course, the learners should be able to

CLO1[K2]	outline the core concepts, theories, and research methods in social psychology
CLO2[K3]	examine the relationship between the person and the situation and its influence on attitudes, prejudice, aggression, prosocial behavior, and interpersonal relationships
CLO3 K4]	analyse contemporary events using social psychological theories or concepts
CLO4[K5]	evaluate the major theories of social psychology on the basis of the relevance to the contemporary world.
CLO5[K6]	predict the outcomes of various social situations through application of social psychology principles

Generic Elective Course

Course Code: 23GZEG31

Course Title STATISTICS OF
BEHAVIOURAL SCIENCE

On successful completion of the course, the learners should be able to

CLO1[K2]	demonstrate the basic concepts of statistics in psychology.
CLO2[K3]	apply the data presentation strategies to effectively present data.
CLO3 K4]	analyse the data using various statistical analysis methods
CLO4[K5]	.evaluate the appropriate statistical methods on the basis of its effectiveness.
CLO5[K6]	predict the relationship among psychological variables by the application of statistical analysis.

Skill Enhancement Compulsory Course	
Course Code:] 23GZES31	Course Title: STATISTICAL DATA ANALYSIS USING SPSS
On successful completion of the course, the learners should be able to	
CLO1[K2]	\identify relevant statistical techniques for data analysis at different contexts
CLO2[K3]	perform elementary and advanced statistical analyses.
CLO3 K4]	simplify data presentation using data representation techniques
CLO4[K5]	interpret the results of various outputs generated through SPSS.
CLO5[K6]	test research hypothesis using parametric and non-parametric statistical tests on the SPSS platform.

Skill Enhancement Compulsory Course	
Course Code: 23GZDS31	Course Title EARLY CHILDHOOD CARE AND EDUCATION
On successful completion of the course, the learners should be able to	
CLO1[K2]	explain the core concepts of childhood education
CLO2[K3]	apply the knowledge of childhood education to promote better childhood learning experience
CLO3 K4]	analyse the factors that impact the childhood learning experience
CLO4[K5]	evaluate the intervention strategies of childhood education in terms of its relevance and effectiveness
CLO5[K6]	create ideas and innovations for new intervention strategies for contemporary needs of children.

Core Course	
Course Code: 23GZC41	Course Title: DEVELOPMENTAL PSYCHOLOGY-III
On successful completion of the course, the learners should be able to	
CLO1[K2]	. describe and identify concepts and theoretical perspectives related to development across the physical, cognitive, and psychosocial domains of development
CLO2[K3]	. apply principles to real-world issues and problems of adolescence and early adulthood
CLO3 K4]	analyze the factors that impact the development during adolescence and early adulthood.
CLO4[K5]	evaluate the major theoretical perspectives of development on the basis of its relevance in the contemporary world
CLO5[K6]	formulate new intervention strategies to deal with modern problems arising in Middle Age and Old age periods

Core Course	
Course Code: 23GZC42	Course Title: SOCIAL PSYCHOLOGY II
On successful completion of the course, the learners should be able to	
CLO1[K2]	define social psychology and the related terminology.
CLO2[K3]	examine the relationship between the person and the situation and its influence on attitudes, prejudice, aggression, prosocial behavior, and interpersonal relationships
CLO3 K4]	appraise the dynamics of group behavior in areas of social influence, such as altruism, conformity, obedience, deindividuation, intergroup relations, and conflict and cooperation.
CLO4[K5]	evaluate the current and historical research in the social psychology field.
CLO5[K6]	construct novel application of the social psychological principles to real-world issues.

SKILL ENHANCMENT COURSE	
Course Code: 23GSE49L	Course Title EVENT PLANNING - LAB
On successful completion of the course, the learners should be able to	
CLO1[K2]	summarize the necessary guidelines and procedures to coordinate, execute and evaluate a special event.
CLO2[K3]	implement a successful event from conception of a plan to the implementation of the event.
CLO3[K4]	examine the necessary interpersonal skills to aid in the process of event planning.
CLO4[K5]	device a strategy to work towards the success of the event
CLO5[K6]	predict the success of the event using the knowledge gained.

SKILL ENHANCMENT COURSE	
Course Code: 23GSE49	Course Title: EVENT PLANNING
On successful completion of the course, the learners should be able to	
CLO1[K2]	outline a plan for an event.
CLO2[K3]	apply the knowledge of different kinds of needs that are required to be catered during an event..
CLO3[K4]	illustrate basic interpersonal skills required for event planning
CLO4[K5]	evaluate the on-site preparations of the event successfully
CLO5[K6]	predict the success of the event using the knowledge gained.

Generic Elective Course	
Course Code: 23GZEG41	Course Title INTRODUCTION TO RESEARCH METHODOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the fundamental principles of the research process as they relate to answering research questions in psychology.
CLO2[K3]	apply the basic research techniques and research design to answer different psychological questions
CLO3 K4]	analyze data in relation to identifying the nature of relationship among variables in research claims.
CLO4[K5]	interpret psychology sources on the basis of the quality and reliability of the source
CLO5[K6]	create research report compiling the research findings with respect to APA formatting guidelines

Core Course	
Course Code: 23GZC52	Course Title: COGNITIVE PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	explain the core concepts of cognitive psychology, that facilitates understandings of the mind and brain function
CLO2[K3]	implement the core knowledge to solve problems from the perspective of cognitive psychology.
CLO3 K4]	analyze, evaluate, and compare major theories in cognitive psychology and relate experimental results to these theories.
CLO4[K5]	critically evaluate the quality of cognitive research and formulate logical arguments on the basis of theoretical and empirical analyses.
CLO5[K6]	construct novel broader implications of cognitive research for society

Core Course	
Course Code: 23GZC5L	Course Title: ASSESSMENTS IN PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	define social psychology and the related terminology.
CLO2[K3]	demonstrate skills in administering and scoring assessment measures
CLO3 K4]	analyze the psychometric properties of the psychological tools used.
CLO4[K5]	compose and report the inferences from the results of psychological testing..
CLO5[K6]	create a standard report that characterizes individual differences.

Core Course	
Course Code: 23GZC51	Course Title: PSYCHOPATHOLOGY I
On successful completion of the course, the learners should be able to	
CLO1[K2]	summarize the working knowledge of the classification, causes, presentation, diagnosis, and treatment of psychological problems.
CLO2[K3]	apply common approaches to assessing symptoms and signs of psychological disorders
CLO3 K4]	analyze the factors and theoretical perspectives related to the development and maintenance of different types of abnormal behavior.
CLO4[K5]	evaluate critically the most commonly-used diagnostic classification systems and techniques for diagnostic assessment
CLO5[K6]	construct novel and appropriate interventions for common psychological disorders, considering the individual differences

Generic Elective Course	
Course Code: 23GZDE51	Course Title ORGANIZATIONAL PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	explain the core concepts and paradigms of organizational psychology
CLO2[K3]	employ the core knowledge to understand human behavior at work.
CLO3 K4]	analyse the factors that impact the human functioning at work situations
CLO4[K5]	.recommend appropriate interventions to enhance work environments
CLO5[K6]	design novel training and intervention programs to suit modern needs.

Generic Elective Course	
Course Code: 23GZDE52	Course Title POSITIVE PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the key positive psychological terminologies and constructs
CLO2[K3]	apply contemporary scientific theories of positive psychology to understand issues of well-being in applied settings.
CLO3 K4]	analyze the implications of positive psychology to biological, psychological, social and emotional outcomes.
CLO4[K5]	evaluate research that supports the principles, strategies, tools, and skills of positive psychology.
CLO5[K6]	develop a toolkit of measures and activities for putting positive psychology scientific findings, theories, and tools into real-world practice

Generic Elective Course	
Course Code 23GZDE53	Course COUNSELLING PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	explain various approaches in counselling, the types of counselling and its distinctive uses and the ethical standards of a counselling psychologist
CLO2[K3]	.apply the counselling approaches to address clients' problems
CLO3 K4]	apply the counselling approaches to address clients' problems
CLO4[K5]	.evaluates clients' progress, assessment results for application and intervention purposes.
CLO5[K6]	create treatment plans by integrating multiple aspects of the counselling process (e.g., theoretical knowledge, evidence-based practices etc.).

Generic Elective Course	
Course Code 23GZDE54	Course COMMUNITY PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the relevant concepts, issues, and work methods in community psychology
CLO2[K3]	.analyse and evaluate various socio-cultural psychological models and behaviours of Indian youth.
CLO3 K4]	critically examine the socio-economic indicators and its impact on development
CLO4[K5]	.appraise the role of human development and family structure on Mental Health
CLO5[K6]	develop preventive measures and design promotion programmes for better community development.

Core Course	
Course Code: 23GZC62	Course Title: EDUCATIONAL PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	summarize the meaning, scope, functions of concepts, importance, and necessity of Educational Psychology.
CLO2[K3]	apply evidence-based practices in teaching and learning to solve education related problems
CLO3 K4]	analyse the individual differences among the learners under the scope of educational psychology.
CLO4[K5]	evaluate the existing practices of Educational psychology in the lines of its relevance to catering a student's needs
CLO5[K6]	design novel and practical intervention strategies to cater the needs of modern learners

Generic Elective Course	
Course Code 23GZC5P	Course PROJECT WITH VIVA-VOCE
On successful completion of the course, the learners should be able to	
CLO1[K2]	review the appropriate literature for framing the research problem
CLO2[K3]	evaluate the psychometric properties of a psychological test/tool to check its appropriateness to the research application.
CLO3 K4]	collect data from a sample of targeted population in attempts to find explanations to the research problem
CLO4[K5]	analyze the collected data using statistical methods and generate conclusions
CLO5[K6]	infer the findings from the analysis and document the findings in an APA report format.

Core Course	
Course Code: 23GZC61	Course Title: PSYCHOPATHOLOGY II
On successful completion of the course, the learners should be able to	
CLO1[K2]	summarize the working knowledge of the classification, causes, presentation, diagnosis, and treatment of psychological problems.
CLO2[K3]	apply common approaches to assessing symptoms and signs of psychological disorders
CLO3 K4]	analyse the factors and theoretical perspectives related to the development and maintenance of different types of abnormal behavior
CLO4[K5]	evaluate critically the most commonly-used diagnostic classification systems and techniques for diagnostic assessment.
CLO5[K6]	construct novel and appropriate interventions for common psychological disorders, considering the individual differences

Core Course	
Course Code: 23GZC63	Course Title: HEALTH PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	explain the core concepts and major theories that guide the field of health psychology
CLO2[K3]	apply the practical information gained in the course to improve the overall well-being of the individuals in need.
CLO3 K4]	analyse the fundamental issues in this field, with a particular focus on promoting health across wide range of settings (Home, work, education, etc.).
CLO4[K5]	evaluate the existing research and innovations in Health Psychology
CLO5[K6]	develop novel ideas to improve intervention strategies and client resources for individuals across lifespan

Core Course	
Course Code: 23GZDE61	Course Title: SPORTS AND EXERCISE PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the core concepts and major theories that guide this field
CLO2[K3]	apply effective psychological techniques and interventions to evaluate and monitor their clients.
CLO3 K4]	analyse various factors that affect the performance of the clients on an individual and team level
CLO4[K5]	evaluate the existing research and innovations in Sports and Exercise Psychology
CLO5[K6]	create novel intervention ideas in order to better serve the field of sports and exercise psychology.

Core Course	
Course Code: 23GZDE64	Course Title: PSYCHODIAGNOSTICS
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the principles and concepts relating to the adult mental health, including assessment, formulation, and evaluation.
CLO2[K3]	apply the core concepts to assess different characteristics of a person with use of various diagnostic techniques.
CLO3 K4]	analyse the factors that impact assessment of the psychological functioning
CLO4[K5]	evaluate the level of reliability of the diagnostic data and tests.
CLO5[K6]	compile the diagnostic data to make inferences about the characteristics of a person.

Generic Elective Course	
Course Code 23GZDE64	Course INTRODUCTION TO INDIAN PSYCHOLOGICAL THOUGHT
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe the core components of an Indian Psychological thought.
CLO2[K3]	.apply the self-development knowledge to understand the meaning behind one's life
CLO3 K4]	develop and use the self-development knowledge to understand the meaning behind one's life.
CLO4[K5]	.analyse various religious school of thought in explaining the concept of Mind.
CLO5[K6]	estimate the future prospectus of Indian Psychology in understanding the cotemporary world.

Generic Elective Course	
Course Code 23GZDE63	Course ENVIRONMENTAL PSYCHOLOGY
On successful completion of the course, the learners should be able to	
CLO1[K2]	describe key concepts, theories, and methods in the field of environmental psychology
CLO2[K3]	.apply the key principles of application of Environmental Psychology in design of urban and built spaces
CLO3 K4]	critically analyse built environments drawing on environmental psychology methods, theories, and evidence, and suggest evidence-based improvements
CLO4[K5]	.critically analyse built environments drawing on environmental psychology methods, theories, and evidence, and suggest evidence-based improvements
CLO5[K6]	conduct a basic evaluation of an environmental intervention
