FEEDBACK AND STUDENTS GRIEVANCE REDRESSAL COMMITTEE

ONLINE FEEDBACK BY STAFF ON CURRICULUM:2023-24

Actions taken for the Suggestions given by Staff

Appreciation:

➢ Our curriculum is well designed to equip the students with all the skills that are required for their future.
➢ Curriculum is well framed and regularly updated
➢ Our Curriculum meets the current needs

Feedback by the Staff	Action Taken
Department of English	
We need more awareness of online courses by IIT	NPTEL and SWAYAM are both associated with the Indian Institutes of Technology (IITs). Already many teachers have completed several courses and those teachers are orienting and guiding the students to get through such courses.
We expect more emphasis on Research Scenario.	A mandatory review on literature has been done through Research Forum for the final-year UG and PG students, covering research techniques, literature review methods and theories. This has provided hands-on experience with academic research, allowing students to contribute to research paper presentations in the Seminars and Conferences and have made them receive Best Paper awards too.
Two internal system can be introduced	Best Two Term Tests are considered for CIA. To facilitate the students in improving their marks, we are following Three Term Tests.
Duration for 60 Marks End semester Exam can be cut down to two and a half hours .	Duration for End Semester Exam is fixed based on the Course Content for the Course.

Department of Commerce	
Practical oriented papers are to be introduced.	Number of Practical Courses being offered are adequate for all Commerce Programmes.
MS-Office, Tally and Designing courses needed for all B. Com. students	In addition to the courses being offered in their curriculum students can enrol themselves in Extra Courses offered by departments. MS-Office - Certificate in Data Entry Operator Tally - Diploma in Computer Applications Designing - Certificate in Desktop Publishing
IoT Paper can be included.	Course on IoT is offered for students with Digital Electronics background.
B. Com. (Corporate Secretaryship) can be introduced.	New Programme will be introduced based on demand analysis.
Department of Costume Design and Fashion	
B. Des. can be introduced.	New Programme will be introduced based on demand analysis.
Department of Computer Science	
Crash Course on Deep Learning can be introduced.	Seminar on Deep Learning will be organised this semester
Course on App development shall be included in the Curriculum.	23PSDE21 – Mobile Application Development [Theory Course] & 23PSSE2L – Mobile Application Development Lab have been introduced in 2023 M.Sc., (C.Sc.)
Department of Nutrition and Dietetics	
Papers like Personalized Nutrition and Nutrigenomics can be introduced in the future.	Content on Personalised Nutrition is included in the course 23GDC31 – Nutrition through Life Cycle. Content on Nutrigenomics shall be included in the curriculum during the next Syllabus Revision.
Department of Business Administration	
Need Practical Hours for Computer Applications in Business for the betterment of technical skill of the students.	Arranged for weekly one hour Lab for the Course 'Computer Applications in Business'

Need more major papers instead of English and Tamil in 3rd and 4th Semester.	Language Courses are mandatory for students to get Job in the Government Sector.

Department of Physics

Courses on Interactive design, Communication design and Product design can be offered.	Possible courses will be introduced in the next Syllabus Revision.

Department of Chemistry

For PG Programmes, I feel that there is no need to include general paper other than core courses (Cyber Security).	This course is prescribed by UGC. The course is necessary in the present scenario to create awareness and ethics amongst the students.
PG - Attendance for Part C should not be mandatory. Instead, we could have few activities (like two activities per semester)	Total Hours per Year for Part C Programme is 60 Hours and only 75% of Attendance in mandatory.

Department of Botany

Number of Skill Enhancement Courses in PG programme can be reduced. Practical hours for the PG programme should be increased.	Flexibility is given to offer Skill Enhancement Courses as Practical Courses in PG Curriculum.
